The Scientific Committee on Neurotoxicology and Psychophysiology
of the International Commission on Occupational Health

Chairman editorial

Dear colleagues,

I must admit to feeling a bit sad writing these lines, since this is the very last editorial I write as chairman of the committee!

Many years have passed since I joined the committee in the late 1980's, and became the secretary under the leadership of Renato Gilioli. At that time, there was no limit to two three year terms as chairman or secretary, as is enforced today. Dr Gilioli was the chairman until the congress in Nice 1993, when Shunichi Araki took over. I stayed on as the secretary until the year 2000, when Dr Araki resigned in Singapore and I was appointed chairman.

With the help of Roberto Lucchini, and some pressure from the ICOH board, we have structured the work in the committee somewhat, and updated membership lists, removing "sleeping members". This has hopefully made possible a greater activity within the committee, and recently we have seen an increase in the number of members.

I'm especially happy that the number of younger scientists is increasing, since we really do need the enthusiasm of young researchers to achieve continuity and a positive development of our activities.

It is also encouraging that we get members from new countries, and that we will have the next international symposium in such a country in Central America. Visiting Costa Rica will be a new experience for me, and I really do wish Dr Catharina Wesseling and her co-workers the best of luck in their work to coordinate this meeting with that of the scientific committee on epidemiology!

It feels good being able to retire and to leave the committee in the capable hands of Dr Roberto Lucchini as the new chairman, and Dr Seong-Kyu Kang as the secretary! They have both shown us their capacity by successfully organizing the two latest international symposia, and I am convinced that they will significantly contribute to the successful development of the activities within our committee!

With my very best wishes for the future,

Anders Iregren
Retiring chairman

From the secretary

Dear all,

First of all I would like to thank Anders on behalf of all the members of this SC, and on behalf of everybody in the field of research and prevention. His excellent work has built the foundation of behavioral toxicology and I am very grateful to him for such an important contribution !

The planning of the 10th International Symposium in Costa Rica is proceeding. Ineke Wesseling and Donna Mergler are working on the organization of the meeting that will merge with the one by the Scientific Committee on Epidemiology.

ICOH 2006 will start next week and I would like to summarize the most updated information regarding our Scientific Committee:

1. A key note lecture will be given by Anders Iregren "BEHAVIORAL TOXICOLOGY, FROM HISTORICAL BACKGROUND TO FUTURE TRENDS" on Thursday 15 from 12:00 to 12:30
2. The Special sessions "RECENT FINDINGS ON NEUROTOXIC EFFECTS OF METALS" Chaired by Monika Meyer-Baron and Helena Herrero-Hernandez will be on Wednesday 14th from 14:30 to 16:00
3. The Special sessions "NEURODEGENERATION AND METAL EXPOSURE. CASE-CONTROL STUDIES ON ALZHEIMER AND PARKINSON'S DISEASE", Chaired by Antonio Moccaldi and myself, will be on Wednesday 14th from 16:30 to 18:00
4. The Special sessions "ACUTE AND CHRONIC EXPOSURE TO INDUSTRIAL CHEMICALS AND SENSORY PERCEPTION IN WORKERS" Chaired by Fabrizio Maria Gobba and Christoph van Thriel will

be on Thursday 15th from 14:30 to 16:00

5. The Special sessions "CHRONIC SOLVENT-RELATED ENCEPHALOPATHY: SCREENING AND RECOGNITION OF AN OCCUPATIONAL DISEASE" Chaired by Gert van der Laan and Markku Sainio will be on Thursday 15th from 16:30 to 18:00
6. Two Parallel Sessions including free presentations on Neurotoxicology and Psychophysiology will be on Tuesday 13th and on Thursday 15th in the afternoon
7. The business meeting of our Scientific Committee will be on Tuesday 13th from 13.00 to 14.30

Please check the conference website <http://www.icoh2006.it/en/home.htm> for further information.

The NTOXMET workshop is a satellite meeting of ICOH2006 and will take place in Brescia, Italy on June 17th and 18th. This meeting is co-organized by our SC and the SC on Toxicology of Metals. The organizing committee has assembled a very exciting scientific program with experts in lead, mercury and manganese neurotoxicology. Please check the conference website www.notxmet.it.

Once again, we are very happy to offer this variety of initiatives and I would like to thank everybody who is actively participating in the organization of these activities. See you soon in Italy!

Yours,
Roberto Lucchini

- PS: I would like to remind the [new members](#) to complete the enrollment procedure through the ICOH website <http://www.icohweb.org/membership.asp> and subscribe the membership fee. Thank you for your collaboration !

ICOH2006

MINISYMPOSIA SCHEDULED BY THE SCIENTIFIC COMMITTEE ON NEUROTOXICOLOGY AND PSYCHOPHYSIOLOGY

MINISYMPOSIUM "CHRONIC SOLVENT-RELATED ENCEPHALOPATHY: SCREENING AND RECOGNITION OF AN OCCUPATIONAL DISEASE"

Chairs: Gert van der Laan, Netherlands, and Markku Sainio, Finland

- THE RISE AND FALL OF CSE IN NL by Gert van der Laan
- CHRONIC SOLVENT ENCEPHALOPATHY; TOWARDS TRANSPARENT DIAGNOSTICS by Maarten Verberk
- THE PRACTICE AND PROBLEMS OF DIAGNOSING CSE IN KOREA. Seong-Kyu Kang, Eun A Kim, Yeon-Soon Ahn
- SCREENING AND EVALUATION OF SOLVENT EXPOSURE AND NEUROTOXIC SYMPTOMS - AN APPROACH FOR OCCUPATIONAL HEALTH SERVICES by Ari Kaukiainen
- SOLVENT-RELATED CHRONIC TOXIC ENCEPHALOPATHY: LESSONS TO LEARN FROM CLINICAL DIAGNOSTIC EXAMINATIONS by Markku Sainio

MINISYMPOSIUM "RECENT FINDINGS ON NEUROTOXIC EFFECTS OF METALS"

Chairs: Monika Meyer-Baron, Germany; Elena Herrero Hernández, Italy

- PHARMACOLOGICAL TREATMENT OF OCCUPATIONAL MANGANESE-INDUCED PARKINSONISM E Herrero Hernández, MC Valentini, G Discalzi, A Chiò, M Ferraris, E Pira, SQ Ky, HS Deng, PY Xie, WD Hu, Y Jiang, XA Mo, FQ Du, X Fu, XY Zhu, HY Gao, FL Liao, JL Xie, W Zheng
- MANGANESE: TRANSPORT AND MECHANISMS OF NEUROTOXICITY Michael Aschner, Vanessa Fitsanakis, Dejan Milatovic, Keith Erikson
- ANALYSIS OF THE NEUROPSYCHOLOGICAL TESTS USED FOR THE ASSESSMENT OF THE MANGANESE NEUROTOXICITY Silvia Zoni, Elisa Albinì, Roberto Lucchini
- THE INFLUENCE OF COGNITIVE RESERVE ON THE RELATIONSHIP OF LEAD EXPOSURE AND NEUROBEHAVIORAL PERFORMANCE Bleecker M. L., Vaughan C.G., Ford D. P., Lindgren K. N.
- DEVELOPMENTAL EFFECTS OF NEUROTOXIC METALS: CONSEQUENCES OF OCCUPATIONAL EXPOSURES BEYOND THE WORKPLACE Philippe Grandjean
- ALUMINUM - WHICH EVIDENCE IS AVAILABLE FOR ITS NEUROBEHAVIORAL IMPACT? Monika Meyer-Baron, Ernst Kiesswetter, Stephan Letzel, Michael Schaeper, Christoph van Thriel

MINISYMPOSIUM “ACUTE AND CHRONIC EXPOSURE TO INDUSTRIAL CHEMICALS AND SENSORY PERCEPTION IN WORKERS”

Chairs: Fabrizio Gobba, Italy, and Christoph van Thriel, Germany

- SENSORY PERCEPTION: AN OVERLOOKED TARGET OF CHRONIC OCCUPATIONAL EXPOSURE TO INDUSTRIAL CHEMICALS Fabrizio Gobba
- CHEMICAL EXPOSURE AS A RISK FACTOR FOR HEARING LOSS: IMPLICATIONS FOR OCCUPATIONAL HEALTH. Thais Morata
- SENSORY EFFECTS OF OCCUPATIONAL TOLUENE EXPOSURE IN VIEW OF AN ENHANCED CONCEPT OF ADVERSITY Michael Schaeper
- TESTING THE VISUAL SYSTEM: SCREENING, COMPREHENSIVE MEASUREMENTS IN CROSS-SECTIONAL STUDIES AND CLINICAL ASSESSMENTS (ONLY A PROPOSAL) Markku Sainio
- ASSESSING CHEMOSENSORY PROPERTIES AND EFFECTS OF THE LOCAL IRRITANT ETHYL ACETATE Christoph van Thriel
- PRACTICAL PRESENTATION OF CURRENT METHODS FOR SENSORY TESTING: OLFACTION AND VISION van Thriel and Gobba:
During this practical presentation the complete set of the Sniffin' Sticks will be available and, if Dick Doty agrees, an Italian and English version of the UPSIT (known commercially as the Smell Identification Test or SIT) will be accessible.
The Lanthony d-15 desaturated panel and the Vistech test will be also available, and the method applied for "in the field" testing of visual function in group of workers will be presented and discussed. Participants can use the tests and discuss problems of designing epidemiological studies.

MINISYMPOSIUM “NEURODEGENERATION AND METAL EXPOSURE. CASE-CONTROL STUDIES ON ALZHEIMER AND PARKINSON’S DISEASE SUPPORTED BY ISPESL (National Institute Of Occupational Safety At Work, Rome)”

Chairs: Roberto Lucchini, Italy and Antonio Moccaldi, Italy

- ALZHEIMER DISEASE. AN EPIDEMIOLOGICAL STUDY ON THE ROLE PLAYED BY OCCUPATIONAL EXPOSURE Bruno Papaleo, Lorenzo Alessio, Piero Apostoli, Giuseppe Battista, Roberto Lucchini, Armando Pelliccioni, Laura Marcellini, Patrizio Pasqualetti
- A WEB APPLICATION FOR DATA GATHERING AND STORAGE: A STRATEGIC TOOL FOR A LARGE SURVEY ON RELATIONSHIP BETWEEN WORKING ACTIVITY AND ALZHEIMER DISEASE Luca Paulo, Daniele Milazzo, Paolo Maria Rossini, Patrizio Pasqualetti, AFaR-Associazione Fatebenefratelli per la Ricerca, Ospedale Fatebenefratelli – Isola Tiberina, Roma
- PARKINSONIAN DISTURBANCES AND EXPOSURE TO METALS. GENERAL DESCRIPTION OF AN ITALIAN CASE-CONTROL STUDY Francesco Draicchio, Lorenzo Alessio, Pietro Apostoli, Roberto Lucchini, Giuliano Binetti, Antonella Alberici, Patrizio Pasqualetti, Laura Benedetti, Elisa Albini, Stefano Borghesi, Alessandra Corulli, PaoloMaria Rossini
- PARKINSONIAN DISTURBANCES AND EXPOSURE TO METALS. PRELIMINARY RESULTS FROM NEUROCHEMICAL, TREMORIMETRY AND BRAIN MRI ASSESSMENT Elisa Albini, Romana Coccaglio, Laura Benedetti, Stefano Borghesi, Margherita Caci, Annalisa Caruso, Roberto Lucchini, Roberto Gasparotti, Alessandro Padovani, Giovanni Parrinello, Giuliano Binetti, Lorenzo Alessio
- METALS AND OXIDATIVE STRESS IN PARKINSON'S DISEASE Squitti R., Binetti G., Ghidoni R., Barbiero L., Albini E., Benedetti L., Melgari J., Cassetta E., Cesaretti S., Lucchini R., Rossini P.M.

International Meetings

**28th International Congress of ICOH
(International Commission on
Occupational Health)
Milan, Italy
11-16 June 2006**

NTOXMET workshop

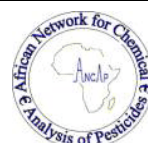

**Neurotoxic metals: lead,
mercury and manganese
FROM RESEARCH TO
PREVENTION**

Brescia, Italy
June 17-18, 2006
